

MAYOR'S REPORT

2/18/20

This is my fourth Mayor's report and new changes are happening within the town.

As promised, at the sewer plant they will be placing new lids on the blue tanks in May and will be using stronger deodorizers to help eliminate the odor to give our residents a better quality of life. Also, after meeting with our Engineer, more lids will be placed on the Digesters to eliminate up to 75% of the odor which causes the biggest part of the problems.

The budget process is almost complete. The Mayor's office and CFO worked diligently to clean up many issues to get finances back on track. Our taxpayers will always be our main concern.

My open space appointments have been selected and are as follows:

Sue Piazza

Matthew Thomas Scerbo

James Campbell

The Liaison for the Land Use Board will be William Spencer

My appointment for the Historical Commission will be Jeffrey Finegan

Respectfully Submitted

Todd M. Tersigni

Mayor of Phillipsburg
