Notice of Updated Bid Specifications

Green Street Field – Supply and install 120' of 10' high mesh safety netting on top of the 250' replacement section of outfield fence using appropriate ties and support poles. Overlap of the mesh netting to the 4' high replacement outfield fencing should be at least 6" and not exceed 1'

Hill Street Field – Replacement of 15 support poles for the 700' stretch of perimeter fencing

Madison Fields – Supply and install of 360 feet of 10' high mesh safety netting on top of the 360' replacement section of fence using appropriate ties and support poles. Overlap of the mesh netting to the 8' high fencing should be at least 1' and not exceed 2' ***This replaces the need for an additional 8' high section of fencing***

Mesh netting specs: Black, 3.0mm; 10'x60' prefabricated, medium weight, 250lb break strength
