

**MAYOR'S REPORT**  
**OCTOBER 6, 2020**

The Community Day of Action was a huge success. There were 127 volunteers from all over that helped. Thank you to all that were involved in cleaning up our town.

Mayor, Council and Recreation have come together for the children in town and have signed a shared service agreement with the Steele Hill Youth Organization.

Pork Roll Palooza will be Oct. 17<sup>th</sup>. All details have been worked out. Try and come down to Shappell Park from 11-5 and check out the festivities. Social distancing will be enforced, and masks must be worn.

An agreement has been made with the Phillipsburg School District to fix the problem at Maloney Stadium. I would like to thank everyone that was involved in making this happen.

There was another upgrade to the Sewer plant so there will be proper air flow through the sludge system. Thank you, Council for allocating the funds so the quality of life will be better for the residents. The final stage will be the two lids installed on the digesters.

On behalf of the town, we would like to thank Aqua Water for their generous donation to the Phillipsburg Senior Center. William Spencer, Executive Director, Charlotte Longacre Director and I accepted the check for \$5,000.00 from Lawrence Carson, President of Agua along with Michele Ryan and Barbara Malia.

Traffic coming into Bridge Development has been a problem. The Mayor's office has been working with the police and engineer to help solve these issues. Many new signs have been installed to divert the trucks from going into residential areas. I am asking for your patience, so this can be resolved in a timely manner. I share your frustrations. We can work this out by working together.

The Mayor's Office has negotiated with Lawrence Carson, President of Agua to secure money to pave more roads for our town. Attorney Wenner is in the process of drawing up the agreement.

Respectfully Submitted,  
Todd M. Tersigni  
Mayor of Phillipsburg
